It is with great privilege that I write to you in recommendation of Anna Lewandowska. I have found her to be a pleasant, generous person who is never afraid to take on a challenging task.

Anna translated auditor's opinions, profit and loss accounts, auditor's reports for our company. I have seen many examples of her translation and have long been impressed by her diligence and work ethic what is of key importance when translating financial statements. She is able to successfully complete translations with favorable results despite deadline pressure.

To conclude, I highly recommend her for a post of translator at your organization. I believe Anna will manage every translation task she will face. If you have any further questions regarding Anna's ability or this recommendation, please do not hesitate to contact me using the information on this letterhead.
